Application for WCB Adjudicator

Dear Hiring Committee,

I am writing to express my strong interest in the Adjudicator position at the Workers Compensation Board of Manitoba. With a B.A. Honours in Psychology, and over two years of experience conducting eligibility assessments, developing risk-informed case plans, and a demonstrated ability to communicate decisions clearly to diverse stakeholders, I am eager to bring these skills to a role where informed, timely decision-making directly shapes people's lives.

In my current role as a Newcomer Case Manager Intern at Resilia Community Wellness Centre, I assess client eligibility against established criteria, gather and analyze complex information from multiple sources, and produce structured triage reports to guide case outcomes. I communicate decisions and rationale to clients, interpreters, and community partners, often in sensitive and emotionally charged circumstances. This experience has sharpened my ability to apply policy frameworks consistently, manage competing priorities under pressure, and maintain professionalism and confidentiality throughout. I am proficient in CARMIS, MS Office, and client documentation systems, and I bring strong written and verbal communication skills honed through direct client work, report writing, and stakeholder presentations.

What I believe sets me apart is the depth of understanding I bring to client-facing decision-making. Through the Newcomer Youth Participatory Action Research Project at IRCOM, I worked closely with refugee and immigrant youth, conducting interviews and focus groups to document their firsthand experiences navigating barriers across institutional systems. That experience shaped my awareness that the people behind a claim or a file are navigating real hardship, and that how a decision is communicated matters as much as the decision itself. I carry that awareness into every assessment I conduct, approaching each interaction with both analytical rigor and genuine regard for the person on the other end.

My Crisis Counselling Skills Training through Klinic, HRPP-E Facilitator certification, and undergraduate research on alexithymia and trauma's impact on emotional processing have further equipped me to remain grounded and effective in high-pressure, emotionally sensitive environments. I have also demonstrated a capacity for initiative, developing operational resources that strengthened team workflows at Resilia, which speaks to my ability to work well under limited supervision while contributing to organizational effectiveness.

I am drawn to the WCB's commitment to service, equity, and meaningful community impact, and I am excited by the opportunity to grow through the structured training program the role offers. I am committed to bringing the same consistency, care, and professionalism to every claim I handle. Thank you for your time and consideration. I look forward to the opportunity to connect.

Warm regards,

Deborah Alabi
